OBJECTIVE

MCA student with a strong foundation in programming, data structures, DBMS, and object-oriented programming, seeking opportunities in Data Science, Artificial Intelligence & Machine Learning, and Software Development. Eager to apply analytical thinking and problem-solving skills to real-world projects, develop reliable software solutions, and continuously learn emerging technologies while contributing effectively to a collaborative team.

EDUCATION

BMS Institute of Technology and Management, Bengaluru (VTU) *2025 – 2027*
Master of Computer Applications (MCA)

North University, Chikkaballapura *2021 – 2024*
Bachelor of Computer Applications (BCA), CGPA: 7.89

AES National PU College, Gauribidanuru (KSEEB) *2019 – 2021*
Pre-University Education, 79.5%

Govt. High School, Gauribidanuru (KSEEB) *2009 – 2019*
Primary and Secondary School Education, 84% in SSLC

SKILLS

- **Programming Languages:** C, C++, Python, Java, JavaScript
- **Computer Concepts:** Object-Oriented Programming, DSA, DBMS
- **Frameworks:** Spring Boot, React.js, MongoDB, Flutter SDK, Dio
- **Development:** MERN, LAMP, Flutter, Android using Java
- **Soft Skills:** Good Communication Skills, Problem Solving Techniques

PROJECTS

CissanMart — Field to Family
Tech Stack: *Flutter | MERN | MongoDB | Node.js | Socket.IO | Razorpay*

- Built a farmer-to-consumer agricultural marketplace with separate Flutter apps for buyers and farmers and a React web interface.
- Developed a Node.js/Express REST backend with MongoDB, JWT authentication, and Cloudinary-based media handling.
- Integrated Razorpay for online payments and Socket.IO for real-time communication between farmers and buyers.

MONIC — My Own Neural Intelligence Comrade
Tech Stack: *Python | Flutter | Android | AI Agents | Automation*

- Designed a personal AI assistant that uses AI agents to automate everyday tasks.
- Developed the Python-based automation logic and a Flutter Android app as the user interface.

Phantom SOS
Tech Stack: *MERN Stack | MongoDB | Node.js | React | Steganography*

- Developed a full-stack emergency SOS application using the MERN stack.
- Applied steganography techniques to embed information securely within media.

CERTIFICATIONS AND ACHIEVEMENTS

- **Data Science Using Python** – Eduphoenix Solutions
- **DBMS with Oracle PL/SQL** – Offline training with project, SQE Systems & Solutions, Bengaluru in association with MCA BMSIT&M (26 Feb 2026)
- **Cloud Computing in AWS** – Workshop (18–19 June 2026), CertoMeter
- **Forward Deployed Engineer** – 30-hour offline course (26 Sep – 1 Oct 2026), CertoMeter
